

EPROGLUE M HAND-USE SET

This set has been developed to apply water-based (aqueous) glue with a hand-use pen brush applicator. The applicator has an ergonomic handle with removable brushes, that can be easily exchanged. We have different forms and sizes depending on the needs for different gluing operations.

Dimensions: 210 x 90 x 80 mm

Weight: 0.7 kg

Ref. 100-KPM-001

The set includes:

- 1 stainless steel support for 2 plastic cups with a rack, which can contain several brushes, to keep them handy at any time. Special emplacement for the application pen.
- 1 handle with two brushes (round \varnothing 7 mm and flat 3x7 mm)
- 2 rigid plastic cups: a shallow one for the glue, a deeper one for the cleaning product.
- 2 caps: one to cover the unused cup, the other with a special opening to receive the applicator pen when in use.
